Attendance/Participation:

Homework/File Submission:

You will have homework assignments every week that will consist of reading assignments, practice work from Note Booking journal, and experiments.

Assignment Sheets:

Please look at the Weekly Assignment Sheets (Listed under the Announcements tab on Canvas) to find your assignments, exams, and due dates. There are always 2 weeks' worth of assignment sheets posted for your planning purposes.

Module Tests:

You will have a test after each module. You may take each test ONCE, all tests are closed book and closed notes, meaning you may not use any of your materials during the test. The test will cover the most important info from each module. Each test will be available for 2 days. If you have any questions about the information in the module, please ask BEFORE the day of the test. Once the test is submitted, you cannot change your answers. If you need to take a test at a different time than is stated, your parent/guardian must pre-determine that time with me.

Due Date Policy:

Unless a death, illness, or technology issue has prevented you from completing an assignment or exam on time, any late work will not be accepted and will receive a 0 in the grade book. In the event any of the above cases happens, you will need to have a parent/guardian contact me with an extension request. This is an FPE school policy and can be found in the student/parent handbook.

Expectations/Guidelines:

During the live lectures, it is imperative that students are able to concentrate and have their questions answered in a timely manner. It is also important that everyone feels comfortable giving their opinions on a topic, even if their opinions are different from those set forth in the text. In addition, I want everyone to feel comfortable asking me questions. Therefore, please adhere to the following guidelines while in the classroom:

1. If you have a question, raise your hand or send it in the Q and A.
2. No chatting during the lecture (This includes changing your screen name to a chat message.).
3. When you log into class, you must use your first and last name.
4. You MUST use your microphone and headset. If your mic breaks, it is your responsibility to replace it within a reasonable amount of time.
5. Be respectful of everyone's opinions.
